

Appl. No. : **10/014,162**
Filed : **December 11, 2001**

AMENDMENTS TO THE SPECIFICATION

Please replace the Specification as filed with a Substitute Specification submitted herewith under 37 CFR 1.125, both in clean copy and as a marked-up copy showing all the changes relative to the as-filed specification, to conform the specification to the Amendment to the Drawings. Additionally, typographical errors were corrected throughout the Specification. The brief description of re-numbered Figure 1 and 8 was amended to use sequence identifiers, and numbered paragraph [0089] of the Substitute Specification was amended to add a sequence identifier (SEQ ID NO: 113). The Appendix has been added to the Substitute Specification. Support for this addition can be found in the PCT/US00/16776 to which this application claims priority, and the entire disclosure of which was incorporated by reference in this application. Therefore, the Substitute Specification includes no new matter.
